Thanks Steve. We are reviewing the document and will get back to you with our assessment. Whatever happens with this immediate situation, we agree that a more thorough program review and update is warranted, and we want to be part of that with DOGGR.

Safe travels tomorrow.

I look forward to meeting you soon. Jane

Jane Diamond

Water Director, EPA Region 9

Jane,

Here is the link.

Obviously this creates the need for some rethinking here about next steps. That said, based on what I have learned over the past couple of weeks, we have significant work to do at our end to make sure our house is in order with respect to the UIC program. That is not something I will lose sight of.

We shall keep you, David, Mike and other apprised as events unfold at our end.

Steve

David:

Please find the link below to the document we discussed earlier. If you have any questions, please let me know.

Thanks,

Rob
